Education

Birzeit University Aug. 2020 – June. 2025
Bachelor of Computer Science *Ramallah, Palestine*

Relevant Coursework

- Data Structures
- Database Management
- Systems Programming
- Problem Solving
- Software Methodology
- Artificial Intelligence
- Computer Architecture
- Leadership
- Algorithms Analysis
- Internet Technology
- Effective Communication
- Time Management

Experience

Iconnect Technologies Aug. 2024 – Nov. 2024
Full-Stack Developer Intern *Ramallah, Palestine*

- Backend Development Proficiency: demonstrated adeptness in utilizing the C-sharp programming language to engineer robust backend solutions, complemented by the proficient application of the ASP.NET framework for developing scalable and efficient web applications.
- Frontend Development Expertise: exhibited mastery in client-side scripting with JavaScript to create dynamic and engaging user interfaces, coupled with proficiency in leveraging the Angular framework to craft sophisticated and interactive web experiences.
- Security Awareness and Implementation: Acquired a comprehensive understanding of fundamental cybersecurity principles and methodologies, integrating rigorous security protocols into web development endeavors to ensure the integrity and confidentiality of digital assets.

Projects

FinTrack — Financial Management System/ *Flutter • Firebase • Dart • Gray Wolf Optimization*

- Cross-platform app helping users organize income, expenses, and savings with real-time tracking, analytics, and smart budgeting. Uses GWO to provide personalized recommendations. Includes PDF/Excel reporting and notifications..

School System — Android (Java)/ *Android Studio • Java • MySQL*

- An Android school management app supporting multiple roles like students, teachers, and admins. It features login, student info, scheduling, grade publishing, resource sharing, and messaging, all integrated with a PHP backend and MySQL database for secure data handling. The app architecture includes numerous activities and permissions, with PHP scripts managing database interactions. This demonstrates skills in mobile development, backend integration, and database management.

Team Management App/ *HTML • CSS • PHP*

- A team management web app built with HTML, CSS, PHP, and a database. It features user login, a dashboard displaying teams with options to add, edit, or delete teams, and detailed team pages. Key functions include team listing, player counts, and navigation, enabling users to manage sports teams efficiently.

Technical Skills

Languages: Flutter, Dart, Python, Java, C,C-Sharp, HTML/CSS, JavaScript,PHP, SQL
Developer Tools: VS Code, Eclipse, IntelliJ IDEA, PyCharm, Android Studio, Firebase
Technologies/Frameworks: Linux, GitHub, JMeter, ASP.NET Framework, Angular.JS framework, Cross-Platform Mobile Development using Flutter (Dart) , Native Android Development (Java).
